- Flame failure fitted as standard
- Easy access to all components for servicing and adjustment
- Heavy duty Italian made vitreous enameled trivets
- 24 month warranty

OPTIONS

- Custom burner configurations
- Pilot take-off
- Front panels available in custom colours
- Natural or LP gas

High quality and long-lasting

All units are constructed from AISI 304 grade stainless steel and a highly efficient and powerful 31Mj single ring burner that readily meets the requirements of a demanding kitchen.

Reliable performance and efficiency

All units feature a heavy-duty European made vitreous enamelled trivet with extended fingers that allow for smaller pots and large to be used in operation. Each burner is fitted with a multi-setting gas valve, enabling enhanced flame regulation.

Flexibility

Boiling Top can be combined with our Verro Grill Plate and Char Broiler sections, adapting to any kitchen's demands and requirements.

Easy maintenance

Maintenance is made easy through frontal access to all components. Additionally, the metal trays are easy to remove and are dishwasher friendly.

TIP

Look out for the colour
of the flame on your boiling
top. If you see yellow flames,
that means your gas is
burning inefficiently!
